

COVID-19 TeleHealth Delivery Policy and Procedure Guidance for RI Medicaid Updated March 26, 2020

Effective March 18, 2020 and until further notice, Rhode Island will reimburse for clinically appropriate, medically necessary covered services, including behavioral health services to members via TeleHealth. This includes both fee-for-service and managed care. Working with CMS, the state is focused on ensuring that Rhode Islanders' access to critical health care services is not impacted by the widespread disruptions caused by COVID-19.

Temporary steps taken to address the COVID-19 emergency include the use of non-HIPAA compliant videoconferencing. The Office of Civil Rights (OCR), within federal Health and Human Services, stated: *"OCR will exercise its enforcement discretion and will not impose penalties for noncompliance with the regulatory requirements under the HIPAA Rules against covered health care providers in connection with the good faith provision of telehealth during the COVID-19 nationwide public health emergency."*

OCR's notice further stated: *"Covered health care providers may use popular applications that allow for video chats, including Apple FaceTime, Facebook Messenger video chat, Google Hangouts video, or Skype, to provide telehealth without risk that OCR might seek to impose a penalty for noncompliance with the HIPAA Rules related to the good faith provision of telehealth during the COVID-19 nationwide public health emergency. Providers are encouraged to notify patients that these third-party applications potentially introduce privacy risks, and providers should enable all available encryption and privacy modes when using such applications."*

In alignment with OHIC and commercial payers, and in accordance with CMS guidance, EOHHS will also reimburse telephonic (telephone only) services under TeleHealth services. EOHHS encourages providers to use video capabilities as much as possible.

As part of implementation, RI Medicaid has identified specific fee-for-service codes that are prepared to bill under this policy when billed with a place of service '02' TeleHealth. Fee-for-service codes submitted in this fashion will bill at the same rate as in-person codes. Should you have questions or difficulty billing these fee-for service codes, please call the DXC Provider Line at 401-784-8100.

Should you believe that additional fee-for-service codes are medically necessary and clinically appropriate to be delivered via TeleHealth that are not included below, please contact Marti Rosenberg at Marti.Rosenberg@ohhs.ri.gov. Marti will collect requests for review by RI Medicaid.

Pursuant to this policy, all non-essential home visits should be stopped, and contact should be carried out by phone or video conference instead if possible. If codes used for billing are not included below, please email Marti Rosenberg as described above.

Rhode Island Medicaid's Managed Care Organizations; Neighborhood Health Plan of Rhode Island, Tufts Health Plan, and UnitedHealthcare; are working on providing similar TeleHealth options that align with Medicaid and OHIC guidance. Further information will be provided as it

COVID-19 TeleHealth Delivery Policy and Procedure Guidance for RI Medicaid Updated March 26, 2020

becomes available. We encourage providers with MCO specific questions to call their provider representatives.

This rule applies to actively participating Medicaid providers as outlined below.

Medicaid Physicians & Federally Qualified Health Care (FQHC) Providers

The procedure codes listed below will be reimbursable when billed with a place of service '02' TeleHealth, claims should be sent to MMIS in a professional or outpatient claims format only. The codes listed below have a maximum limit of one unit for each date of service

Procedure Code	Description
99201	Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: A problem focused history; A problem focused examination; Straightforward medical decision making. Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs.
