Subject: Request to Change Account Information on Part C Grant

Date: April 21, 2015

The Rhode Island Executive Office of Health and Human Services (EOHHS) requests to change account information as related to the RI Part C Grant. The reason this change is required is that when the original grant was awarded, the RI Department of Human Services was the single state Medicaid agency; since that time EOHHS has become the single state Medicaid agency. The Medicaid agency is the lead agency for Part C in Rhode Island.

Through this transfer EOHHS has created a unique DUNS # of **078529392** and a unique vendor code of **05-6000052 J3**. All RI state agencies use one EIN #; the suffix differentiates one RI state agency from another.
