- Family Size = all the children and all of their parents and all spouses of children's parents living in the same household.
- **The amount of money shown in each Income Level is the maximum amount of gross annual income a family can earn in that level.**
- CP indicates approximate actual weekly co-payment range for these families at the percent of income indicated.
- The **Percent of Income** assigned at each level is applied against the gross annual income then divided by fifty two (52 weeks) to determine the weekly payment the family is expected to pay each week.
- The **co-payment is assigned to the youngest child enrolled in care**. DHS subtracts the assigned family co-payment from the full rate for that child when making payments. If the co-payment exceeds the rate paid for one child, the remainder of the family's share is assigned to the next oldest child enrolled.
- If family income or family size changes, the family co-payment is re-calculated.
- The family is expected to make the same weekly co-payment to the designated provider regardless of the number of children or the amount of time enrolled.
