

The Race to the Top Rhode Island Early Learning Challenge Grant initiative is now called Exceed. It publicly conveys the State's commitment to designing and implementing an integrated system of high-quality early learning programs and services that improve outcomes of young children. The power in the name Exceed is that in one word it conveys the goal that all the statewide partners have for the children of Rhode Island. Exceed supports the children of Rhode Island to achieve new heights in their learning. The partners are committed to helping all children to Exceed.

The Executive Office of Health and Human Services is one of the partnering agencies supporting the Grant through the implementation of the following activities:

- Enhancing professional development to support best practices in assessment in Early Intervention
- Collaborating with Health to inform the process of pediatric referrals to EI
- Collaborating with RIDE to align the Child Outcomes Summary Process and transition from Part C to Part B.
