Part C State Annual Performance Report (APR) for FFY 2012

INDICATOR	PAGE
OVERVIEW OF THE ANNUAL PERFORMANCE REPORT DEVELOPMENT	3
ANNUAL REPORT CERTIFICATION	4
INDICATOR #1: PERCENT OF INFANTS AND TODDLERS WITH IFSPs WHO RECEIVE THE EARLY INTERVENTION SERVICES ON THEIR IFSPs IN A TIMELY MANNER.	5
INDICATOR #2: PERCENT OF INFANTS AND TODDLERS WITH IFSPs WHO PRIMARILY RECEIVE EARLY INTERVENTION SERVICES IN THE HOME OR COMMUNITY-BASED SETTINGS.	7
INDICATOR #3: PERCENT OF INFANTS AND TODDLERS WITH IFSPs WHO DEMONSTRATE IMPROVEMENT	8
INDICATOR #4: PERCENT OF FAMILIES PARTICIPATING IN PART C WHO REPORT THAT EARLY INTERVENTION SERVICES HAVE HELPED THE FAMILY	13
INDICATOR #5: PERCENT OF INFANTS AND TODDLERS BIRTH TO 1 WITH IFSPs COMPARED TO NATIONAL DATA. ..	16
INDICATOR #6: PERCENT OF INFANTS AND TODDLERS BIRTH TO 3 WITH IFSPs COMPARED TO NATIONAL DATA. ..	17
INDICATOR #7: PERCENT OF ELIGIBLE INFANTS AND TODDLERS WITH IFSPs FOR WHOM AN INITIAL EVALUATION AND INITIAL ASSESSMENT AND AN INITIAL IFSP MEETING WERE CONDUCTED WITHIN PART C'S 45-DAY TIMELINE. ..	18
INDICATOR #8: PERCENTAGE OF TODDLERS WITH DISABILITIES EXITING PART C WITH TIMELY TRANSITION PLANNING.....	21
INDICATOR #9: GENERAL SUPERVISION SYSTEM (INCLUDING MONITORING, COMPLAINTS, HEARINGS, ETC.) IDENTIFIES AND CORRECTS NONCOMPLIANCE AS SOON AS POSSIBLE BUT IN NO CASE LATER THAN ONE YEAR FROM IDENTIFICATION.	24
INDICATOR #12: PERCENT OF HEARING REQUESTS THAT WENT TO RESOLUTION SESSIONS THAT WERE RESOLVED THROUGH RESOLUTION SESSION SETTLEMENT AGREEMENTS	29
INDICATOR #13: PERCENT OF MEDIATIONS HELD THAT RESULTED IN MEDIATION AGREEMENTS.....	30
INDICATOR #14: STATE REPORTED DATA (618 AND STATE PERFORMANCE PLAN AND ANNUAL PERFORMANCE REPORT) ARE TIMELY AND ACCURATE.....	31
ATTACHMENT A: IMPROVEMENT ACTIVITIES	34

Part C State Annual Performance Report (APR) for FFY 2012**Overview of the Annual Performance Report Development:**

In accordance with 20 U. S. C 1416(b)(1) of the Individuals with Disabilities Education Improvement Act (IDEA) amendments of 2004 and 20 U. S. C. 1442 Rhode Island Part C program developed a State Performance Plan which was approved by the US Department of Education (US DE) in 2006. In accordance with 20 U. S. C. 1416(b)(2)(C)(ii) and 1442, the lead agency for Part C of IDEA in RI, is submitting this FFY 2012-13 Annual Performance Report.

In addition to the family survey for indicator #4, there were two main sources of data used for this APR. The web based data collection system called the Rhode Island Early Intervention Care Coordination System (RIEICCS) was used to report statewide data for Indicators 2, 3, 5 & 6 as required by OSEP. The state also used focused monitoring data for indicators 1, 7, 8 and 9 from local providers' self-assessment data, which was verified by the State for reliability and accuracy. An annual self-assessment is required and assists providers in conducting internal quality reviews to ensure accuracy and reliability of their data and compliance to State and Federal requirements. By reviewing records internally, providers can analyze the root cause of any non-compliance and begin to take corrective action soon as possible. The State performed an on-site visit for all providers this year.

The Executive Office of Health and Human Services shared and reviewed all APR data with the ICC Chair in January 2014. Data reports included data for all indicators for each year of the State Performance Plan. A review of the APR requirements and a discussion of the data will be facilitated at the March 2014 Interagency Coordinating Meeting. An Executive Summary, which provides data for each indicator by provider, as well as this annual report and an updated State Performance Plan will be available no later than February 28, 2014 on the EOHHS website at: <http://www.eohhs.ri.gov/ProvidersPartners/ProviderManualsGuidelines/MedicaidProviderManual/EarlyInterventionProviders/EarlyInterventionProgram.aspx>

A notice to all ICC members, providers, and interested parties that these materials are available on the website is also distributed electronically.

Please note that the original signed copy of the Annual Report Certification of the Interagency Coordination Council has been sent separately to OSEP via US Mail and has also been scanned and sent electronically with this document.

Part C State Annual Performance Report (APR) for FFY 2012

Annual Report Certification

ANNUAL REPORT CERTIFICATION OF THE
INTERAGENCY COORDINATING COUNCIL
UNDER PART C OF THE
INDIVIDUALS WITH DISABILITIES EDUCATION ACT (IDEA)

Under IDEA Section 641(e)(1)(D) and 34 CFR §303.604(c), the Interagency Coordinating Council (ICC) of each jurisdiction that receives funds under Part C of the IDEA must prepare and submit to the Secretary of the U.S. Department of Education (Department) and to the Governor of its jurisdiction an annual report on the status of the early intervention programs for infants and toddlers with disabilities and their families operated within the State. The ICC may either: (1) prepare and submit its own annual report to the Department and the Governor, or (2) provide this certification with the State lead agency's Annual Performance Report (APR)¹ under Part C of the IDEA. This certification (including the annual report or APR) is due no later than February 3, 2014.

On behalf of the ICC of the State/jurisdiction of Rhode Island, I hereby certify that the ICC is: [please check one]

- 1. Submitting its own annual report for FFY 2012 (which is attached); or
- 2. Using the State's Part C APR for FFY 2012 in lieu of submitting the ICC's own annual report. By completing this certification, the ICC confirms that it has reviewed the State's Part C APR for accuracy and completeness.²

I hereby further confirm that a copy of this Annual Report Certification and the annual report or APR has been provided to our Governor.

Dubois Masland
Signature of ICC Chairperson

1-24-2014
Date

masland@ripin.org

401-270-0101 x 113
Daytime telephone number

¹ Under IDEA Sections 616(b)(2)(C)(ii)(II) and 642 and under 34 CFR §80.40, the lead agency's APR must report on the State's performance under its State performance plan and contain information about the activities and accomplishments of the grant period for a particular Federal fiscal year (FFY).

² If the ICC is using the State's Part C APR and it disagrees with data or other information presented in the State's Part C APR, the ICC must attach to this certification an explanation of the ICC's disagreement and submit the certification and explanation no later than February 3, 2014.

Part C State Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Early Intervention Services In Natural Environments

Indicator #1: Percent of infants and toddlers with IFSPs who receive the Early Intervention services on their IFSPs in a timely manner.

(20 USC 1416(a)(3)(A) and 1442)

Measurement:

Percent = [(# of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner) divided by the (total # of infants and toddlers with IFSPs)] times 100.

Account for untimely receipt of services, including the reasons for delays.

Data Source: Focused Monitoring Data

FFY	Measurable and Rigorous Target
2012	100%

Actual Data for FFY 2012: 95.75%

Timely Services (January 1, 2013-June 30, 2013)	# of children	%
Number of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner	248	95.75%
Number of child records reviewed and found non-compliant	11	4.25%
Total number of infants and toddlers with IFSPs	259	100.00%

Discussion of Improvement Activities Completed and Explanation of Progress or Slippage, if the State did not meet its target FFY 2012:

RI has made progress with this indicator from 81.75% to 95.75%. RI defines timely services as services initiated within 30 days of the signature on the initial and subsequent IFSPs active during the review period. Data for this indicator was collected through a self-assessment completed by each certified EI provider agency in October 2013. The State selected a list of specific records to review that made up 10% of the children that were referred and enrolled between January 1, 2013-June 30, 2013 (or 20 records if 20 exist, whichever number was greater). The State compared the self-assessment data with the data from RIEICCS, the State's data collection system for Early Intervention, as a first step in data verification and also conducted on-site visits of all certified EI Providers. The on-site visits included a review of 25% of the records from the self-assessment in order to verify accuracy of the data. Findings were issued for any and all non-compliance to the requirement. This verification process is believed to represent the total EI population for the time period in review. The time period selected allows providers to have implemented their corrective action plans from the previous year.

Part C State Annual Performance Report (APR) for FFY 2012

7 out of 11 certified Early Intervention programs had 100% compliance. One provider had significant slippage from 93.75% to 78.13% and two providers slipped from 100% to 95% and the other from 100% to 90%.

Slippage in this area can be contributed to one provider misunderstanding of prioritizing with families what services could reasonably occur with family schedules and staff shortage due to medical leaves. 11 out of 248 records were found to have noncompliance with timely service requirements. Technical assistance is being provided for these issues.

Correction of Findings of Noncompliance (if State reported less than 100% compliance):

Year Non-compliance Identified	Total Findings: Timely Services	# of Findings Corrected and Verified within 1 year	# of Findings for which Correction was subsequently corrected and verified	Total Findings Corrected	% Findings Corrected as of 2/1/12
FFY 2004	7	0	7	7	100%
FFY 2005	0	0	0	0	100%
FFY 2006	6	6	0	6	100%
FFY 2007	6	4	2	6	100%
FFY 2008	3	3	0	3	100%
FFY 2009	5	5	0	5	100%
FFY 2010	4	4	0	4	100%
FFY 2011	5	5	0	5	100%
FFY 2012	4	0	0	0	*

* Findings from FFY 2012 were made in January 2014 and the one-year correction requirement has not yet passed.

Actions Taken if Noncompliance Not Corrected:

Not Applicable

Verification of Correction of FFY 2012 noncompliance (either timely or subsequent):

The State has verified that each EIS program with noncompliance reported by the State under this indicator: (1) is correctly implementing the specific regulatory requirements; and (2) has initiated services for each child, although late, unless the child is no longer within the jurisdiction of the EIS program, consistent with OSEP Memorandum 09-02, dated October 17, 2008 (OSEP Memo 09-02).

Improvement Activities:

See Attachment A

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2012

Not Applicable

Part C State Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Early Intervention Services In Natural Environments

Indicator #2: Percent of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings.

(20 USC 1416(a)(3)(A) and 1442)

Measurement: Percent = [(# of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings) divided by the (total # of infants and toddlers with IFSPs)] times 100.
Data Source: Data collected for reporting under section 618 (Annual Report of Children Served).
 Table 2

FFY	Measurable and Rigorous Target
2012	88%

Actual Data for FFY 2012: 93.98%

Natural Environments for FFY 2012	# of children
Children served in: HOME	1798
Children served in: COMMUNITY-BASED SETTING	60
Children served in: OTHER SETTING (services provided in a setting that is not home or community based. These settings include, but are not limited to, services provided in a hospital, residential facility, clinic, and EI center/setting for children with disabilities)	119
TOTAL # of children with IFSP's	1977
% of children in Natural Environment (Home + Community Based Setting)	93.98%

Discussion of Improvement Activities and Explanation of Slippage, if the State did not meet its target for FFY 2012:

RI has made progress in this area from 89.21% to 93.98% and exceeded its target.

Improvement Activities:

Part C State Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Early Intervention Services In Natural Environments

Indicator #3: Percent of infants and toddlers with IFSPs who demonstrate improved:

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/communication); and
- C. Use of appropriate behaviors to meet their needs.
(20 USC 1416(a)(3)(A) and 1442)

Measurement:

A. Positive social-emotional skills (including social relationships):

- a. Percent of infants and toddlers who did not improve functioning = [(# of infants and toddlers who did not improve functioning) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers = [(# of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it = [(# of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers = [(# of infants and toddlers who improved functioning to reach a level comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers = [(# of infants and toddlers who maintained functioning at a level comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.

If a + b + c + d + e does not sum to 100%, explain the difference.

B. Acquisition and use of knowledge and skills (including early language/communication):

- a. Percent of infants and toddlers who did not improve functioning = [(# of infants and toddlers who did not improve functioning) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers = [(# of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it = [(# of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it) divided by (# of infants and toddlers with IFSPs assessed)] times 100.
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers = [(# of infants and toddlers who improved functioning to reach a level comparable to same-aged peers) divided by (# of infants and toddlers with IFSPs assessed)] times 100.

Part C State Annual Performance Report (APR) for FFY 2012

- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers = $[(\# \text{ of infants and toddlers who maintained functioning at a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$.

If a + b + c + d + e does not sum to 100%, explain the difference.

C. Use of appropriate behaviors to meet their needs:

- a. Percent of infants and toddlers who did not improve functioning = $[(\# \text{ of infants and toddlers who did not improve functioning}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$.
- b. Percent of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers = $[(\# \text{ of infants and toddlers who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$.
- c. Percent of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it = $[(\# \text{ of infants and toddlers who improved functioning to a level nearer to same-aged peers but did not reach it}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$.
- d. Percent of infants and toddlers who improved functioning to reach a level comparable to same-aged peers = $[(\# \text{ of infants and toddlers who improved functioning to reach a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$.
- e. Percent of infants and toddlers who maintained functioning at a level comparable to same-aged peers = $[(\# \text{ of infants and toddlers who maintained functioning at a level comparable to same-aged peers}) \div (\# \text{ of infants and toddlers with IFSPs assessed})] \times 100$.

Summary Statements for Each of the Three Outcomes:

Summary Statement 1: Of those infants and toddlers who entered or exited early intervention below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 3 years of age or exited the program.

Measurement for Summary Statement 1: Percent = $[\# \text{ of infants and toddlers reported in progress category (c) plus } \# \text{ of infants and toddlers reported in category (d)} \div (\# \text{ of infants and toddlers reported in progress category (a) plus } \# \text{ of infants and toddlers reported in progress category (b) plus } \# \text{ of infants and toddlers reported in progress category (c) plus } \# \text{ of infants and toddlers reported in progress category (d)})] \times 100$.

Summary Statement 2: The percent of infants and toddlers who were functioning within age expectations in each Outcome by the time they turned 3 years of age or exited the program.

Measurement for Summary Statement 2: Percent = $[\# \text{ of infants and toddlers reported in progress category (d) plus } \# \text{ of infants and toddlers reported in progress category (e)} \div (\# \text{ of infants and toddlers reported in progress categories (a) + (b) + (c) + (d) + (e)})] \times 100$.

Data Source: Data collected through the Rhode Island Early Intervention Care Coordination System (RIEICCS) and the Early Childhood Outcomes Center Child Outcome Summary Forms

Part C State Annual Performance Report (APR) for FFY 2012

Target for FFY 2012:

Outcome	A	B
Outcomes 1 - Positive social-emotional skills	61%	56.4%
Outcomes 2 - Acquisition and use of knowledge and skills	71%	54.7%
Outcomes 3 - Use of appropriate behaviors to meet their needs	69.5%	52.7%

Actual Data for FFY 2012:

<u>Social Relationships</u>	<u>Score</u>	<u>#</u>	<u>Using Skill</u>	<u>Score</u>	<u>#</u>	<u>Meet Needs</u>	<u>Score</u>	<u>#</u>
a		<u>7</u>	a		<u>4</u>	a		<u>2</u>
b		<u>288</u>	b		<u>227</u>	b		<u>232</u>
c		<u>219</u>	c		<u>313</u>	c		<u>284</u>
d		<u>404</u>	d		<u>498</u>	d		<u>515</u>
e		<u>230</u>	e		<u>99</u>	e		<u>92</u>
Totals		<u>1148</u>			<u>1141</u>			<u>1125</u>
Summary Statement A		<u>67.86%</u>			<u>77.83%</u>			<u>77.35%</u>
Summary Statement B		<u>55.23%</u>			<u>52.32%</u>			<u>53.96%</u>

A. Of those infants and toddlers who entered or exited early intervention below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 3 years of age or exited the program.

Outcome	# of Children	Total	Percentage
Outcomes 1 – Positive social-emotional skills	623	918	67.86%
Outcomes 2 - Acquisition and use of knowledge and skills	811	1042	77.83%
Outcomes 3 - Use of appropriate behaviors to meet their needs	799	1033	77.35%

B. The percent of infants and toddlers who were functioning within age expectations in each Outcome by the time they turned 3 years of age or exited the program

Outcome	# of Children	Total	Percentage
Outcomes 1 – Positive social-emotional skills	634	1148	*55.23%
Outcomes 2 - Acquisition and use of knowledge and skills	597	1141	*52.32%
Outcomes 3 - Use of appropriate behaviors to meet their needs	607	1125	53.96%

* Did not meet target

Part C State Annual Performance Report (APR) for FFY 2012**Discussion of Improvement Activities and Explanation of Slippage, if the State did not meet its target For FFY 2012:**

For Summary Statement 1 (significant progress), the state met targets in all outcomes.

For Summary Statement 2 (age appropriateness) the state met the target for Outcome 3 - Use of appropriate behaviors to meet their needs

For Summary Statement 2 (age appropriateness) the state did not meet the targets set for Outcomes 1 - Positive social-emotional skills and Outcome 2 - Acquisition and use of knowledge and skills. However, we see evidence that this is the result of better data rather than slippage in performance.

The data system was updated last year to include a reason why providers were unable to complete a COSF on children discharged. This field has reduced our missing data by more than 50%. It also reduces the denominator for the total children. 1277 total children in the data set. 129 children (10%) had missing data in Outcome 1; 123 children (9.63%) had missing data in Outcomes 2; and 161 children (12.61%) in Outcome 3. Missing data includes exit ratings, a missing yes or no to the progress question and ratings incompatible with the answer to the progress question and considered "impossible". All missing data is identified by child ID for programs in a comprehensive outcomes spreadsheet which is updated quarterly for download and also in a data system reporting tool. Providers are expected to review data identified as missing to be sure there is a valid reason for not obtaining a rating. 32% of missing data was contributed to one provider. Technical assistance was provided. All providers are reminded to review and correct this data quarterly.

RI child outcomes data shows a consistent downward trend in "e" and this has affected reaching our targets in Summary Statement 2. We are confident that that the downward trend in 'e' is related to more accurate ratings by providers as a result of technical assistance rather than a decrease in the number children exiting at age expectations. Our data shows no corresponding increases in percentages of children with significant developmental delays exiting EI and no corresponding increases in children eligible for Part B. The downward trend in our percentage of "e" continues into the current year as well. We expect the effects of our ongoing technical assistance not to be evident immediately but visible over time due to the fact that children exit at various points in early intervention, some of them over a span of approximately three years. This makes target setting a challenge and in our case we set our targets too high in FY 10-11.

As part of our ongoing improvement activities for Indicator 3 (Develop and implement new training module on completing the COSF and the link to functional outcomes) the state reviewed the outcomes statements on each child's IFSP during our focused monitoring process, looking for IFSP outcomes that were functional, measurable and family owed. The outcome statements were marked yes, no, or somewhat for each question- is it functional, is it measurable, and is it family-owned. This baseline data was given to each provider and a Program Improvement Plan is required of all providers in this area. Technical assistance and support was offered to all providers. By improving IFSP outcomes to become more functional, measurable and family owed, it is expected that both child and family outcomes will improve.

Part C State Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Early Intervention Services In Natural Environments

Indicator #4: Percent of families participating in Part C who report that Early Intervention services have helped the family:

- A. Know their rights;
- B. Effectively communicate their children's needs; and
- C. Help their children develop and learn.

(20 USC 1416(a)(3)(B) and 1442)

Measurement:

- A. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family know their rights) divided by the (# of respondent families participating in Part C)] times 100.
- B. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family effectively communicate their children's needs) divided by the (# of respondent families participating in Part C)] times 100.
- C. Percent = [(# of respondent families participating in Part C who report that early intervention services have helped the family help their children develop and learn) divided by the (# of respondent families participating in Part C)] times 100.

Part C State Annual Performance Report (APR) for FFY 2012

Overview of the Annual Performance Report Development:

Monitoring Priority: Effective General Supervision Part C / Child Find

Indicator #6: Percent of infants and toddlers birth to 3 with IFSPs compared to national data.

(20 USC 1416(a)(3)(B) and 1442)

Measurement:
Percent = [(# of infants and toddler birth to 3 with IFSPs) divided by the (population of infants and toddlers birth to 3)] times 100 compared to national data.

Data Source: Data collected for reporting under section 618 (Annual Report of Children Served).

Part C State Annual Performance Report (APR) for FFY 2012

Overview of the Annual Performance Report Development:

Monitoring Priority: Effective General Supervision Part C / Child Find

Indicator #7: Percent of eligible infants and toddlers with IFSPs for whom an initial evaluation and initial assessment and an initial IFSP meeting were conducted within Part C’s 45-day timeline.

(20 USC 1416(a)(3)(B) and 1442)

Measurement:

Percent = [(# of infants and toddlers with IFSPs for whom an initial evaluation and initial assessment and an initial IFSP meeting was conducted within Part C’s 45-day timeline) divided by the (# of infants and toddlers evaluated and assessed for whom an initial IFSP meeting was required to be conducted)] times 100.

Account for untimely evaluations, assessments, and initial IFSP meetings, including the reasons for delays.

Data Source: Data to be taken from monitoring or State data system and must address timeline from point of referral to initial IFSP meeting based on actual, not an average, number of days.

FFY	Measurable and Rigorous Target
2012	100%

Actual Data for FFY2012: 96.91%

Data for this indicator includes children with a completed evaluation and assessment and initial IFSP meeting held during the time period of January 1, 2013 – June 30, 2013 from verified self-assessment data.

IFSPs held within 45 day time period	215
IFSPs with documented family reason for delay	36
IFSPs held beyond 45 day time period (no documented family reason)	8
TOTAL	259
% IFSPs held within 45 day time period (215 / 259)	83.01%
% IFSPs held within 45 day time period + documented family reason for delay (215+ 36 / 259)	96.91%

RI has progress with this indicator from 96.41% to 96.91%. Data for this indicator was collected through a self-assessment completed by each certified EI provider agency in October 2013. The State selected a list of specific records to review that made up 10% of the children that were referred and enrolled between January 1, 2013-June 30, 2013 (or 20 records if 20 exist, whichever number was greater). The State compared the self-assessment data with the data from RIEICCS, the State’s data collection system for Early Intervention, as a first step in data verification and also conducted on-site visits of all certified EI Providers. The on-site visits included a review of 25% of the records from

Part C State Annual Performance Report (APR) for FFY 2012

the self-assessment in order to verify accuracy of the data. Findings were issued for any and all non-compliance to the requirement. This verification process is believed to represent the total EI population for the time period in review. The time period selected allows providers to have implemented their corrective action plans from the previous year.

Discussion of Improvement Activities and Explanation of Slippage, if the State did not meet its target for FFY 2012:

7 out of the 11 certified EI providers had 100% compliance in this area. 3 programs did not meet the state target and experienced slippage from the previous review period. 8 out of 259 records reviewed indicated that the 45 day timeline was not met for provider reason. 100% of records indicated compliance within 70 days. Reasons for non-compliance in this area include a lack of sufficient documentation to support family reason for delay and staffing issues. Providers are encouraged to use data reports for monitoring this indicator in a proactive manner and are provided with TA regarding appropriate documentation for family reasons for delays.

<u>Reason</u>	<u>45 days</u>	<u>50 days</u>	<u>60 days</u>	<u>70 days</u>	<u>80 days</u>	<u>Over 80 days</u>
Compliance	215					
1) Child illness/hospitalization	0					
2) Family requested delay	15					
3) Unable to contact/family cancellation	21					
4) Provider Issue	8	3	1	4	0	0
Total	259	3	1	4	0	0
Total within time frame	251	254	255	259		
Percentage within time frame	96.91%	98.07%	98.46%	100%		

Correction of FFY 2011 Findings of Non-compliance:

Year Non-compliance Identified	Total Findings: 45 Day Timeline	# of Findings corrected and verified within 1 year	# of Findings for which correction was subsequently corrected and verified	Total Findings Corrected	% Findings Corrected as of 2/1/12
FFY 2004	7	6	1	7	100%
FFY 2005	6	3	3	6	100%
FFY 2006	4	4	0	4	100%
FFY 2007	6	5	1	6	100%
FFY 2008	3	3	0	3	100%
FFY 2009	6	6	0	6	100%
FFY 2010	4	4	0	4	100%
FFY 2011	3	3	0	3	100%
FFY 2012	3	0	0	0	*

* Findings from FFY 2012 were made in January 2014 and one-year correction requirement has not yet passed.

Part C State Annual Performance Report (APR) for FFY 2012

3 identified findings from FFY 2011 were corrected within one year. Providers with findings were required to submit corrective action plans to correct the identified issue that led to the non-compliance. The corrective action plans include a program analysis of the root cause for the non-compliance and action steps with responsible parties and dates. In order for the finding to be closed, providers are then required to submit evidence of completion of the action plan and evidence of 100% compliance following completion of the action plan. The RIEICCS is utilized to verify accuracy of this data.

Verification of Correction (either timely or subsequent):

The State has verified that each EIS program with noncompliance reported by the State under this indicator: (1) is correctly implementing the specific regulatory requirements; and (2) has initiated services for each child, although late, unless the child is no longer within the jurisdiction of the EIS program, consistent with OSEP Memorandum 09-02, dated October 17, 2008 (OSEP Memo 09-02).

Part C State Annual Performance Report (APR) for FFY 2012

Overview of the Annual Performance Report Development:

Monitoring Priority: Effective General Supervision Part C / Effective Transition

Indicator #8: Percentage of toddlers with disabilities exiting Part C with timely transition planning for whom the Lead Agency has:

- A. Developed an IFSP with transition steps and services at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler's third birthday;
- B. Notified (consistent with any opt-out policy adopted by the State) the SEA and the LEA where the toddler resides at least 90 days prior to the toddler's third birthday for toddlers potentially eligible for Part B preschool services; and
- C. Conducted the transition conference held with the approval of the family at least 90 days, and at the discretion of all parties, not more than nine months, prior to the toddler's third birthday for toddlers potentially eligible for Part B preschool services.

(20 U.S.C. 1416(a)(3)(B) and 1442)

Measurement:

- A. Percent = [(# of toddlers with disabilities exiting Part C who have an IFSP with transition steps and services at least 90 days, and at the discretion of all parties not more than nine months, prior to their third birthday) divided by the (# of toddlers with disabilities exiting Part C)] times 100.
- B. Percent = [(# of toddlers with disabilities exiting Part C where notification (consistent with any opt-out policy adopted by the State) to the SEA and LEA occurred at least 90 days prior to their third birthday for toddlers potentially eligible for Part B preschool services) divided by the (# of toddlers with disabilities exiting Part C who were potentially eligible for Part B)] times 100.
- C. Percent = [(# of toddlers with disabilities exiting Part C where the transition conference occurred at least 90 days, and at the discretion of all parties not more than nine months prior to the toddler's third birthday for toddlers potentially eligible for Part B) divided by the (# of toddlers with disabilities exiting Part C who were potentially eligible for Part B)] times 100.

Account for untimely transition planning under 8A, 8B, and 8C, including the reasons for delays.

Data Source: Focused Monitoring Data

FFY	Measurable and Rigorous Target
2012	100%

Actual Data for FFY 2012:

- A. **95.56%** of children exiting Part C had an IFSP with transition steps and services at least 90 days and at the discretion of all parties not more than nine months prior to their third birthday.
- B. **97.56%** of children exiting Part C and potentially eligible for Part B had a notification to the LEA and SEA, consistent with Rhode Island's opt-out policy, at least 90 days prior to their third birthday .

Part C State Annual Performance Report (APR) for FFY 2012

- C. **92.68%** of children exiting Part C had a transition conference held, at least 90 days, and at the discretion of all parties not more than nine months prior to the toddler's third birthday for toddlers potentially eligible for Part B preschool services.

Category	# Records Compliant	# Records Reviewed	% of Compliance
A-Transition Steps	86	90	95.56%
B-LEA Notification	80	82	97.56%
C-Transition Conference	76	82	92.68%

Discussion of Improvement Activities and Explanation of Slippage, if the State did not meet its target for FFY 2012:

The State selected a list of specific records to review that made up 10% of the children that were enrolled and discharged between January 1, 2013-June 30, 2013 (or 5 records, whichever number was greater). The State compared the self-assessment data with the data from RIEICCS, the State's data collection system for Early Intervention as a first step in data verification and also conducted on-site visits. The on-site visits included a review of 25% of the records from the self-assessment in order to verify accuracy of the data for all providers. Findings were issued for any and all non-compliance to the requirement. This verification process is believed to represent the total EI population for the time period in review. The time period selected allow providers to have implemented their corrected action plans or improvement plans from last year's visit.

RI did have slippage with transition. 5 out of 11 certified EI providers were 100% complaint in all areas. 6 programs had slippage, 3 providers had slippage in one area, 2 providers in 2 areas and 1 provider in 3 areas (numbers very small). 4 records were not compliant with transition steps based on a lack of quality. 2 records were not compliant for notification based on not adhering to timelines, but did occur. 6 records were not compliant with conference timelines, but did occur. Our newest provider was not compliant in all areas of transition. Numbers for this provider were small, so one record impacted all indicators. On site technical assistance occurred at the focused monitoring visits for all providers regarding their non-compliance.

Guidance documents are being updated to include technical guidance regarding documentation guidelines and timelines.

Correction of Noncompliance:

Year Non-compliance Identified	Total Findings for (8A) Transition Steps	# of Findings Corrected and Verified within 1 year	# of Findings for which Correction was subsequently corrected and verified	Total Findings Corrected	%Findings Corrected as of 2/1/12

Part C State Annual Performance Report (APR) for FFY 2012

Overview of the Annual Performance Report Development:

Monitoring Priority: Effective General Supervision Part C / General Supervision

Indicator #9: General supervision system (including monitoring, complaints, hearings, etc.) identifies and corrects noncompliance as soon as possible but in no case later than one year from identification.

(20 U.S.C. 1416(a)(3)(B) and 1442)

Measurement:

Percent of noncompliance corrected within one year of identification:

- a. # of findings of noncompliance.
- b. # of corrections completed as soon as possible but in no case later than one year from identification.

Percent = [(b) divided by (a)] times 100.

States are required to use the “Indicator C 9 Worksheet” to report data for this indicator (see Attachment 1).

Data Source: Data to be taken from State monitoring, complaints, hearings and other general supervision system components. Indicate the number of EIS programs monitored related to the monitoring priority areas and indicators and the number of EIS programs monitored related to areas not included in the monitoring priority areas and indicators.

FFY	Measurable and Rigorous Target
2012	100%

Actual Data for FFY 2012:

A: Number of findings of noncompliance: 10

B: Percent of noncompliance related to monitoring priority areas and indicators corrected within one year of identification: $10/10 * 100 = 100\%$

Percent of noncompliance related to areas not included in the above monitoring priority areas and indicators corrected within one year of identification: $0/0 * 100 = 0$

Percent of noncompliance identified through other mechanisms (complaints, due process hearings, mediations, etc.) corrected within one year of identification: $0/0 * 100 = 0$

Part C State Annual Performance Report (APR) for FFY 2012

Discussion of Improvement Activities and Explanation of Slippage, if the State did not meet its target, that occurred for FFY 2012:

RI had 100% compliance in this area.

Verification of Correction (either timely or subsequent):

The State has verified that each EIS program with noncompliance reported by the State under this indicator: (1) is correctly implementing the specific regulatory requirements; and (2) has initiated services for each child, although late, unless the child is no longer within the jurisdiction of the EIS program, consistent with OSEP Memorandum 09-02, dated October 17, 2008 (OSEP Memo 09-02)

Part C State Annual Performance Report (APR) for FFY 2012

Overview of the Annual Performance Report Development:

Monitoring Priority: Effective General Supervision Part C / General Supervision

Indicator #14: State reported data (618 and State Performance Plan and Annual Performance Report) are timely and accurate.

(20 U.S.C. 1416(a)(3)(B) and 1442)

Measurement: State reported data, including 618 data, State performance plan, and annual performance reports, are:

- a. Submitted on or before due dates (February 1 for child count, including race and ethnicity, settings and November 1 for exiting, personnel, dispute resolution); and
- b. Accurate, including covering the correct year and following the correct measurement.

As stated in the Indicator Measurement Table, States may, but are not required, to report data for this indicator. OSEP will use the Indicator 14 Rubric to calculate the State's data for this indicator. States will have an opportunity to review and respond to OSEP's calculation of the State's data.

Data Source: State selected data sources, including data from the State data system, as well as technical assistance and monitoring systems.

FFY	Measurable and Rigorous Target
2012	100%

Actual Data for FFY2012: 100%

A. Data has been submitted on or before February 1st for child count, including race and ethnicity, settings and November 1st for exiting, personnel and dispute resolution.

B. RI EOHHS assures that data submitted is accurate and complete. The suggested spreadsheet was used to calculate this data and is included. Focused monitoring was completed in order to ensure accuracy of data for Indicator #1, #7 and Indicator #8.
