Dear Friend:

**I am writing to you about an opportunity to participate as a member of an advisory group for a new state program for seniors and people living with disabilities called the Integrated Care Initiative (ICI).** ICI's goal is to improve the health and well-being of seniors and adults living with disabilities who are eligible for both Medicare and Medicaid. The advisory group, called the ICI Implementation Council, is being organized by the Rhode Island Executive Office of Health and Human Services (EOHHS) to help us develop a high quality, effective health care program.

Members of the Council will include consumers, consumers' caregivers and other family members, service providers, and representatives of other concerned groups. At least half of Council members, including its leaders, will be consumers or their family members. I am attaching a page of Frequently Asked Questions about the ICI Implementation Council that explains the Council in more detail.
