## CLIENT

---

### 1. NEW HEALTH ASSESSMENT ALERT MESSAGING.

The alert sent when field staff answer 'Yes' using MVV or '99' using telephony to the **Has the patient's condition changed?** health assessment question was updated to read as follows:

"The following patient under your supervision has been reported as having a condition change:

<First Name> <Last Initial>

Last 4 digits of Medicaid ID: <Last 4 digits of clientOtherID if found, otherwise 'Unknown'>

PA#: <Patient Authorization number if found, otherwise (or if there are multiple) 'Unknown'>

Please review this patient's case record for further information."

**Prerequisite:** CTDSS Payer

### 2. SECURITY PERMISSIONS MODIFICATIONS.

Resolved an issue preventing office staff with the correct security permissions from updating client social security numbers.

**Prerequisite:** None

---

## SCHEDULING

---

### 3. SANTRAX MAINTENANCE PRINT PREVIEW MODIFICATIONS.

The print preview report for the *Santrax Maintenance* screen was modified to ensure that visit exceptions match what is displayed on the *Santrax Maintenance* screen.

**Prerequisite:** None

### 4. LIVE IN EQUIVALENCY MODIFICATIONS.

Modification were made to ensure that when schedules with a live in equivalency are overwritten, the live in equivalency is not ignored.

**Prerequisite:** None

---

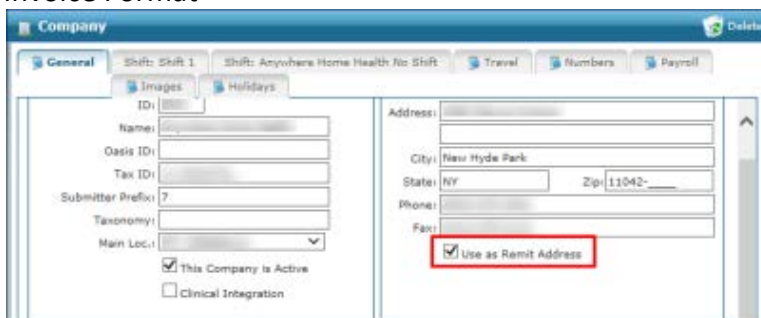

## BILLING

---

### 5. REMIT ADDRESS MODIFICATIONS.

Updated the 'Client Invoice' paper format to print the remit address from the *General* tab of the *Location Detail* screen or the *Company* screen. When entering a remit address, the **Use Location Address on Invoice** checkbox must be selected to include the address on the invoice.

**Prerequisite:** Client Invoice Format

### 6. STAFF STATUS MODIFICATIONS.

A new dropdown, **Update Status from 04 Terminated to**, allows users to change the status of a staff member from '04-Inactive' to '01-Recruit' or '02-Active'. If a user adds an **Effective Date** that is earlier than the terminated date, the following warning message displays: "Warning: The Effective Date entered proceeds the terminated date. Please review and adjust the date entered or select **Next** to continue".

**Prerequisite:** None

### 7. NEW SPLIT SCHEDULE FUNCTIONALITY.

A new checkbox, **Allow Schedule Split Functionality**, was added to the *System Payor* screen's *General* tab. When selected, this checkbox allows the user to filter for and select all applicable schedules on the *Billing Review* screen. The user can then right click and select **Split Schedules** to divide the schedule based on time. This functionality will not split billed or paid schedules. This function is useful for payers or authorizations that require schedules that span days to accurately reflect the date for which the hours of service occurred rather than the schedules start date.

**Prerequisite:** None

### 8. MASS EDIT BILL TYPE.

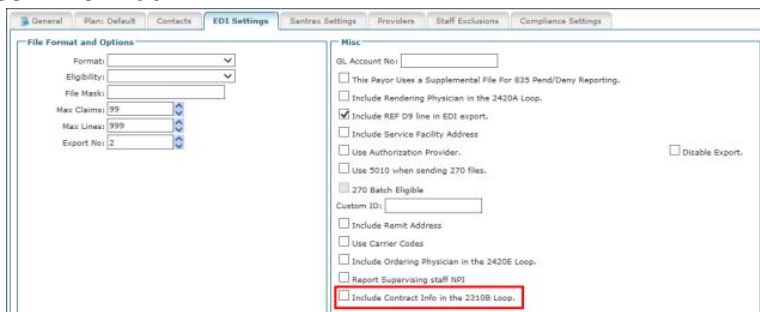

Added the ability for users with the appropriate permissions (Schedules - Mass Edit) to mass edit the **Bill Type** of schedules, that have not been billed, on the *Billing Review* screen. This functionality is only available on the *Billing Review* screen, when a client filter is applied, for items that are not billed.

**Prerequisite:** None

**9. BILLING FORMAT MODIFICATIONS.**

Added a new checkbox, **Include Contract Info in the 2310B Loop**, on the *EDI Settings* tab of the *System Payor* screen. When selected, the system will apply the contract information from the **Locator** number to the 5010 837P billing invoice format.

**Prerequisite:** 5010 837P Format

**10. NEW NOT OK TO BILL REASON: MISSING AUTHORIZATION NUMBER.**

Created a new 'Not Ok to Bill' reason, 'Authorization Reference No. is Missing'. This allows users to filter the *Billing Review* screen for items that have a missing authorization reference number and make any necessary corrections.

**Prerequisite:** None

**11. RI 835 MODIFICATIONS.**

New denial codes were added for agencies with a RI payer.

**Prerequisite:** RI Payer

**12. BILLING REVIEW PRINT PREVIEW MODIFICATIONS.**

Updated the totals section of the *Billing Review* screen's print preview to match the totals section at the bottom of the *Billing Review* screen.

**Prerequisite:** None

**13. BILLING EXPORTS MODIFICATIONS.**

Corrected an issue preventing billing exports for specific clients.

**Prerequisite:** None

**14. MANUAL REMITTANCE BATCH MODIFICATIONS.**

Corrected an issue causing the deletion of write off amounts from saved manual remittance batches.

**Prerequisite:** Manual Remittance Functionality.

**15. 837I MODIFICATIONS.**

Modifications were made to prevent the addition of an extra colon when more than one occurrence span entry is used.

**Prerequisite:** None

**PAYROLL**

**16. PAYROLL TIMEFILE MODIFICATIONS.**

Modifications were made to ensure the **SAM Payroll Export** format displays visits that cross shifts using the correct date.

**Prerequisite:** SAM Payroll Export Format

**17. PAYROLL REVIEW MODIFICATIONS.**

Resolved an issue that caused an additional staff participant line when live in schedules were updated from the **Payroll Review** screen.

**Prerequisite:** None

**REPORTS**

**18. AGED INVOICE - DETAILED EXTENDED REPORT MODIFICATIONS.**

Updated the **Aged Invoice - Detailed Extended** report so that the **Current** column now only displays invoices that are within the term offset, defined at the payor level. Added a new column **1-30**, which displays invoices that are 1-30 days passed the payer's term offset. Added a new checkbox to the report's filters, **Only Past Term**. When this checkbox is selected, the report excludes the **Current** column.

**Prerequisite:** None

The screenshot shows a 'Filters' window with several dropdown menus and date pickers. At the bottom, there is a checkbox labeled 'Only Past Term' which is currently unchecked and highlighted with a red rectangular box.

**Aged Invoices - Detailed Extended**

Invoice Date From 04/11/2006 Invoice Date To 04/16/2018, Cash Applied Date From 05/03/2012 Cash Applied Date To 04/16/2018, Only Past Term = 'False'

**21. INVOICE DETAIL CSV REPORT MODIFICATIONS.**

Added a new checkbox, **Show Invoices Exported Multiple Times**, to the **Invoice Detail CSV** filters. This checkbox is selected by default. When this checkbox is deselected, invoices only appear once on the report no matter how many time they were exported. The report's **Hours** column now displays the live in equivalency for applicable visits.

**Prerequisite:** Billing Functionality

**22. PLAN OF CARE EXCEPTION REPORT MODIFICATIONS.**

Modifications were made to ensure schedules without an authorization are included in the **Plan of Care Exception** report.

**Prerequisite:** Plan of Care Functionality
