

Dear Provider:

Sandata is pleased to announce the release of version 6.9.29 of the Santrax® Agency and Payor Management systems. This release contains maintenance updates, as a result there are no release notes.

Maintenance Information

Sandata will deploy this update to the system on **Wednesday, July 11, 2018 at 9:00 PM** Eastern Time (ET). The maintenance will take **4 (four) hours**, ending at **1:00 AM ET on Thursday, July 12, 2018**.

During this time:

- The system will be unavailable.
- Field Staff who call in and call out, should continue to call in and call out.
- Field Staff, using Mobile Visit Verification (MVV) on a mobile device, will be able to log in or out using the device. As an alternative, field staff should call in and call out using the assigned backup telephony toll free numbers.
- Calls will continue to be collected, but they will not be sent to the agency databases until the maintenance is complete.
- There will be no alerts sent during the time the system is down. Alerts will function normally once the maintenance is complete.

Release Notes

This is a maintenance release, as a result there are no release notes.

Next Scheduled Release Date

The next scheduled release is Thursday, July 19, 2018.
