The State has agreed to determine the eligibility of persons who have an SSI characteristic – 65 and older, blind or disabled – but do not qualify for cash benefits using the SSI methodology and in a manner that is no more restrictive than the way it is applied for SSI. For the purposes of this chapter, the methodology applies to adults with an SSI characteristic – often called SSI lookalikes – who have income at or below the SSI eligibility standard of about 74.5 percent of the FPL as well as those in the State's optional coverage group for low-income elders and adults with disabilities and all populations that qualify for MN eligibility under the Medicaid State Plan. The SSI methodology also applies to persons seeking Medicaid LTSS as indicated in this section.B.
